• Homerun Hitters™ Rules

- First, select your team.

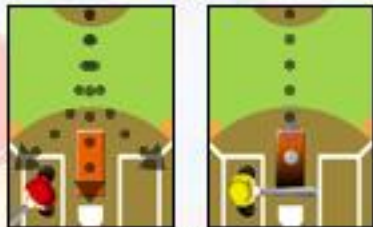

Team Selection

Each team has its own unique style.
Try to find the team that best suits you.

- While on offence, you'll control the batters, and try to hit the balls thrown by the pitcher.
- While on defence, you'll control the pitcher, and try to strike out the batters.
- The type of hit is determined by the hole the ball falls into (Hit, Out, or Home Run).
If it crosses the foul line and falls in the hole, it will be counted as a Foul.
- Once all innings are complete, the match is over. The final score at that time will determine the winner.

•Pitching Advice

When pitching the ball, you can hold down the button to increase the pitch's speed. Fastballs, slowballs, curves, shoots... Try varying your pitches to trick the batter into striking out.

•What's the Magic Disappearing Ball?

When controlling the pitcher, try hiding the buttons with your hand. This way, your opponent won't know when, or what kind, of pitch you will use. This way, you can try declaring that you will throw a disappearing ball, then throw a pitch at the last second.

Psychological duels fought in this way can be just as fun as the main game!
